### **Tri Marine Policy Regarding Full Retention of All Tuna Caught**

As a founding and active member of the International Seafood Sustainability Foundation (ISSF), Tri Marine is committed to maintaining full compliance with all ISSF resolutions. [Resolution 14-03.D](#), “Tuna Stock Health” outlines the requirement for full retention of tunas on board purse seine vessels.

Tri Marine supports and complies with this resolution through internal company policies mandating that all tuna caught on board controlled purse seine vessels must be fully retained, except those unfit for human consumption. In order to ensure the requirements for the resolution are met, Tri Marine:

1. Conducts regular internal compliance audits of all controlled vessels
2. Complies with full observer coverage on all controlled purse seine vessels
3. Collects a signed Captain’s Statement for every fishing trip providing a statement of ISSF compliance including the full retention of all tuna caught
